FOREWORD

With the pace of business and societal changes becoming ever more complex, faster and spanning borders, business leaders must thrive in an ever-changing environment.

Old methods of thinking are no longer suited to the challenges of tomorrow, so, at Rennes School of Business we believe that education is the key to helping students step out of existing frameworks.

With 95% of faculty members and 55% of students coming from outside of France, Rennes School of Business brings the world to our students by opening their minds towards other cultures. Our mission: to allow students to think beyond the framework by living a unique and international experience that will stay with them forever and turn education into a true exchange.

Thinking beyond the framework is about standing out from the rest, working differently, discovering new fields and anticipating tomorrow's challenges to make way for a better and more innovative future.

The quality of our processes, faculty, research and programmes has been endorsed by the leading international accreditation organisations. Rennes School of Business is one of less than 1% of Business Schools in the world to hold EQUIS, AACSB and AMBA "triple crown" accreditation status. This guarantee of quality is our promise to our students and partners.

I look forward to welcoming you to Rennes School of Business. ”

Studying at Rennes SB was an amazing stage in my life in which I could learn from excellent professors and students coming from all around the world. It made me understand Business and Finance from other cultural perspectives but also made me find friends for life. Being a graduate student from Rennes SB has given me many opportunities in big international companies to continue growing professionally. Currently, I am involved in processes migrations in multinational Shared Services and Finance Centers, mainly in Treasury, Working Capital, Internal Control and Fraud Prevention.

Claudia Mañón Macías,
Mexican Alumna

After a couple of years of working in the mobile internet sector in China, I decided to join Rennes SB. This adventure has privileged me with a rapid access to some cutting-edged topics and very innovative practices in this domain, in horizontal and vertical senses. I felt very often enlightened and inspired by the insights shared by professors and also experts in this field. In addition, the school atmosphere is very dynamic, emphasising the involvement of international students in various social activities offering exposure to French language and culture. For younger students, it is a highly desirable, enriching and impressive experience of self-exploration. This can definitely act as a springboard for their personal development.

Jing Jin, Chinese Alumna

There are a lot of reasons why studying at Rennes School of Business was amazing. Classes here are practical, almost all professors provided us with real examples from their own experience and also we organised some events by ourselves. On top of all that, I now truly have friends from all over the world.

WELCOME TO RENNES SB
ALUMNI NETWORK!

Like all Grandes Écoles, Rennes SB offers a high level of academic quality. However, in my opinion, the aspect that makes the difference is the international dimension. I was able to choose among the numerous double degrees and decided to attend Tongji University in Shanghai. Following my exchange, I stayed in Asia and now work in Hong Kong. I feel that I really made the most of my experience.

Maxime Verbena,
French Alumni

Studying at Rennes SB has been an amazing experience that surpassed my expectations. First of all, I learned to work in a really diverse and international environment, and I enjoyed learning of cultures from all around the world. Secondly, Rennes SB is truly a Business School that focuses on developing the students' skills and provides us with practical tools that can be easily applied in companies and always in an international context. Thirdly, the School encourages students to think in a creative way, making the exchange of ideas amazing when working in teams. I really enjoyed studying at Rennes SB since it helped me to grow personally and professionally.

Mariana Velandia, Mexican Alumna

I was very lucky to be able to study my master's degree at Rennes School of Business! There are world-class excellent professors here, and the setting of courses closely follows the dynamics of market trend. A variety of lectures, talks, group projects, etc. allowed me not only to learn advanced knowledge, but also to improve my soft skills such as speaking and teamwork. The career coaching and recruitment platform provided by the school allowed us to go one step further from our dreams. After graduation, with my study experience, skills and degree at Rennes School of Business, I successfully got a job opportunity in Prada. I am very grateful to the school.

STUDENT SATISFACTION IS OUR PRIORITY

ONE QUESTION
ONE PLACE,
ALOHA SQUARE!

- Easy access to information for students through Aloha Square: a reception area with an administrative helpdesk opened from 8am to 6pm.
- Aloha Square can be contacted through different channels: via the Aloha Student Care chat on Teams, using the "contact us" button on the Aloha web site, or by phone.
- Aloha is also a website with all the information students are looking for from all Departments (Career, exchange, programmes, etc.).
- If students need specific guidance from a Department at the school, Aloha Square is also here to put them in contact with the right person.

FRENCH PUBLIC HEALTH INSURANCE FOR INTERNATIONAL STUDENTS

The French social security system is mandatory, but free of charge for any Rennes School of Business student. For medical cover during the first three months, the school strongly advises students to take out a private social security insurance contract in their home country.

WELCOME SERVICES

THE WELCOME OFFICE //

Supports students with accommodation and administrative procedures (Housing allowance, health care registration...).

The welcome office helps in the obtention of a resident permit through a privileged partnership with the French immigration administrative office (préfecture).

WELL'COME ASSOCIATION & STUDENT HELPERS //

Help international students settle into the school and life in Rennes. The Well'come pick them up at the station or airport on their arrival. It also organises tourist trips (Mont-Saint-Michel, Paris, etc.) and sports events.

The student helpers advise and support them in their enrolment procedures.

CHECK-IN //

The school organises an Aloha check-in for all international students upon their arrival. Students will have the opportunity to finalise their administrative enrolment and find a wide range of services in one place: healthcare, residence permits, banking, Internet providers, mobile phones, bus passes, etc.

WELCOME EVENTS //

Campus Game, to discover the school, the staff, the faculty and facilities. Campus Festival, to meet the Rennes School of Business community through music and sports events.

HOUSING SERVICE

RENNES SCHOOL OF BUSINESS OFFERS A WIDE RANGE OF FACILITIES TO SUPPORT STUDENTS LOOKING FOR THE BEST PLACE TO STAY BEFORE THEIR ARRIVAL AND THROUGHOUT THEIR STUDIES IN RENNES AND PARIS

To guide them at this very important stage of their journey, the welcome and housing service supports the international students with both an on-line service and a physical office.

Rennes School of Business has built strong links with different partners:

- Studapart peer-to-peer platform where students have access to different options: premium residences around the campus, private flats or shared apartments
- Public student residence halls (CROUS)

RESPONSIBLE BUSINESS LEADERS

DEVELOP RESPONSIBLE PROJECTS WITHIN 26 STUDENT ASSOCIATIONS

Our associations reveal talent of our students by allowing them to manage and develop responsible projects in an operational context, close to the reality of real-life business situations. Both French and international students learn more about multicultural management and teamwork during this hands-on experience.

The associations are divided into five centres of activity (with 15 clubs within the different associations) and the choice of projects is vast:

■ BUSINESS SERVICES

■ STUDENT SERVICES

■ ARTISTIC AND CULTURAL EVENTS

■ SPORTS

■ HUMANITARIAN PROJECTS

“

I chose Rennes SB because the school, which is already committed to sustainability, also offers a specialised master's degree in Sustainable Management and Eco-Innovation. This double degree with Unilasalle engineering school allows students to become responsible leaders. Currently working as a CSR assistant, I am able to use what I learned during this course to sustainably transform my organisation to preserve the environment and to adapt its operations towards sustainable development.

POSITIVE IMPACT RATING FOR BUSINESS SCHOOL: RENNES SB REACHES THE LEVEL 4 OUT OF 5!

**TO BUILD
A MORE
SUSTAINABLE
CAMPUS
TOGETHER**

The “Positive Impact Rating for Business Schools” seeks to contribute as a lever of change to the transformation of the business school landscape (45 rated business schools from 21 countries). The Positive Impact Rating (PIR) is the only rating or ranking measuring the positive impact of business schools. And it is the only student-based rating. Students worldwide are clear in their demands, they want their schools to integrate sustainability and responsibility in a wider number of courses, programmes, and classes. (positiveimpactrating.org)

FROM AWARENESS TO ACTION

At Rennes School of Business, we contribute to sustainable development by being innovative and entrepreneurial. We place responsible and sustainable practices at the heart of everyday management and teaching and work together to build a more responsible daily life for students and staff members (e.g., campus events, programmes, student associations, research, human and social policy, student projects, ...).

THERE IS NO PLANET B!

The School strives for its students to leave the institution with a strong sense of ethics and values related to business’s role in society and the skills to analyse environmental and social problems from a business perspective. This goal is accomplished through teaching, learning by doing, developing self-awareness, and research.

THE “UNFRAMED THINKING” PHILOSOPHY

INNOVATIVE TEACHING METHODS

Within the “unframed thinking” philosophy that is embraced in the School’s pedagogical orientation, students are encouraged to challenge their assumptions and to expand their horizons beyond their former boundaries, working with their professors, their peers and the community at large.

Students will use online platforms to brainstorm and debate ideas, engage in school-wide design sprints to test new concepts, support the implementation of student-driven pedagogical initiatives and use creative classroom solutions to foster learning co-creation.

“THINKING BEYOND THE FRAMEWORK MEANS LEARNING DIFFERENTLY”
