UPPSALA  
UNIVERSITET

# ABOUT UPPSALA UNIVERSITY

Uppsala University is recognised around the world for being a leading, first-class university dedicated to advancing science, higher education and international student mobility.

Uppsala University has during recent years, with some exceptions, ranked among the top universities in the world by all the big international rankings lists, such as Times Higher Education (THE), QS World University Rankings and ARWU (Shanghai Ranking).

As the first university in Sweden, Uppsala University has a long and impressive history, that will be an asset to you long after your graduation. Eight academics affiliated with the University have been awarded the Nobel Prize.

Uppsala university is a mix of history and modern facilities. As a student, you will enjoy the modern campus areas while being immersed in a historic setting.

The university has succeeded in recruiting some of the best teaching and research staff from around the world. The informal learning environment means that as a student, you will have plenty of contact time with your teachers and learn from the very best.

Uppsala University is a comprehensive university in every sense of the word. Research and education are closely linked, and regardless of what you study, you will have close contact with research groups and make important academic connections.

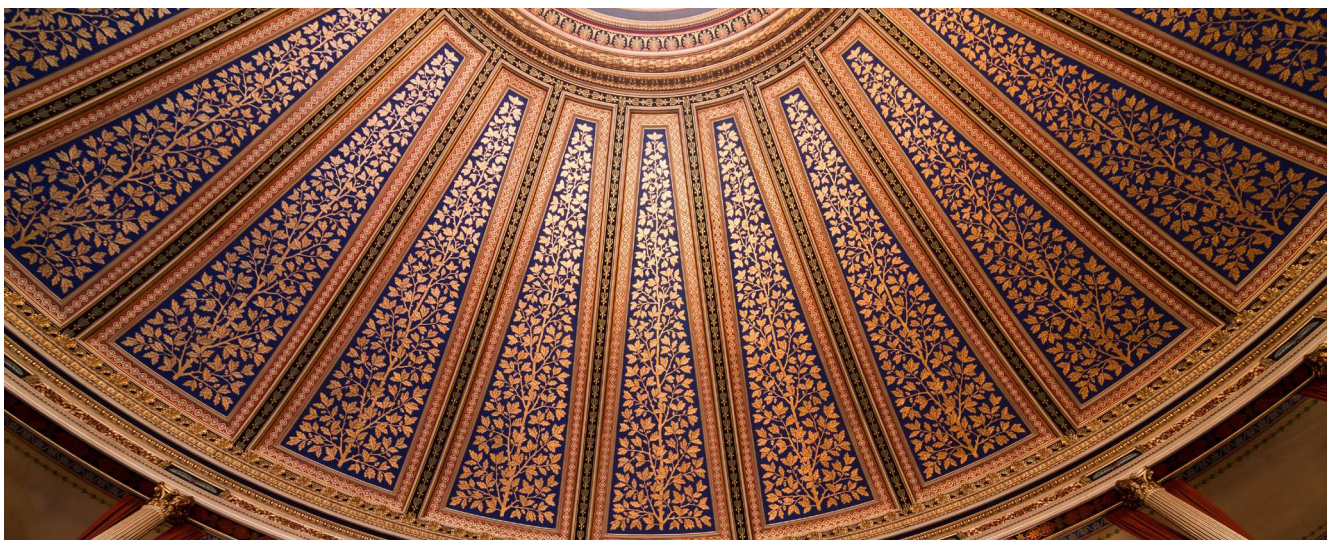

You will partake in engaging lectures and research seminars at your department, and gain hands-on experience conducting field and laboratory work.

As one of Sweden's most internationally prominent institutions of academic education, research and scholarship, Uppsala University's foremost aim is to safeguard and pursue the open and unbounded quest for knowledge.

Our Master's programmes are based on world-leading research and as a student, you will be immersed in a research-intensive environment.

There is no wonder that many of our master's graduates continue with a PhD education somewhere in the world.

*We hope to see you as a student at Uppsala University in the future!*

# ADMISSION AND APPLICATION

## Bachelor's and Master's studies

Our wide range of international Bachelor's and Master's programmes are taught in English and commence in August with the autumn semester. Information about each programme, including entry requirements, application procedures and tuition fees can be found on the webpage:

[www.uu.se/admissions](http://www.uu.se/admissions).

## Application and tuition fees

Students from outside the European Union (EU), European Economic Area (EEA) and Switzerland, are required to pay application and tuition fees to study at university level in Sweden

There are no application or tuition fees for students who are citizens of a country within the EU, EEA or Switzerland. Students apply for Bachelor's and Master's programmes through the website University Admissions:

[www.universityadmissions.se](http://www.universityadmissions.se).

For students who are required to pay an application fee, the cost is SEK 900, while the tuition fees vary between programmes. At Uppsala University, tuition fees cost between SEK 100 000 and 145 000 per academic year. For details about the tuition fees for specific programmes, including the cost per semester and for the entire programme, please view the webpage: [www.uu.se/fees](http://www.uu.se/fees).

## Scholarships

Every year, Uppsala University awards a number of scholarships to international students. These scholarships cover the full cost of tuition, but not living expenses.

Scholarships from Uppsala University are only offered to fee-paying students, and the number awarded changes from year to year. For more information, please visit:

[www.uu.se/scholarships](http://www.uu.se/scholarships).

### Entry requirements

To be eligible for a Bachelor's programme at Uppsala University, applicants must have completed upper secondary school. To be admitted as a Master's student at Uppsala University, applicants must have been awarded a Bachelor's degree from an internationally recognised university.

Each programme has additional specific requirements that you must also satisfy. More detailed information about these can be found on each programme's page.

As all of the University's international programmes are delivered in English, students must also have excellent knowledge of written and spoken English. You will need to provide

proof of your English proficiency, usually through an internationally recognised test. Certain university studies in English can be used to meet the English requirements instead.

### How to apply

You apply to all programmes through [www.universityadmissions.se](http://www.universityadmissions.se). This is a national central application system, which means that you can apply for several programmes and/or courses at different universities in Sweden with the one application.

On [universityadmissions.se](http://universityadmissions.se), you are able to create a user account, search for programmes and courses, create an application, pay the application fee (if required) and reply to offers of admission. Here you may also submit your supporting application documents.

For more information, please visit: [www.universityadmissions.se](http://www.universityadmissions.se).

# PRACTICAL INFORMATION

## Higher education in Sweden

Swedish higher education is divided into three distinct levels: first cycle (Bachelor's degree), second cycle (Master's degree) and third cycle (Doctoral degree). Each cycle is based on the former, which means that students must have completed a first cycle programme to move on to the second cycle, and a second cycle programme to move on to the third cycle. This follows the same educational system as the majority of European countries.

## Credits

The duration of programmes and courses is expressed in a system of credits. The Swedish university credit system awards 1.5 credits for each completed week of full-time study. This system is compatible with the European Credit Transfer System (ECTS), meaning 1 Swedish credit = 1 ECTS credit.

An academic year consisting of 40 weeks of full-time study amounts to 60 credits. A Bachelor's degree at Uppsala University is worth 180 credits, which is equivalent to three years of full-time study. A Master's degree can require either 60 or 120 credits, and is equivalent to one or two years of full-time study.

## Housing

Uppsala University will guarantee an offer of housing to all fee-paying Bachelor's and Master's students for the duration of their programme. Students will be provided with a fully furnished dormitory room located in one of the student housing areas in town.

The housing guarantee is only offered to individual students. Unfortunately we are not able to provide accommodation for accompanying family members.

Rent will cost between SEK 3 500 and 6 500 per month.

Non-fee-paying students are responsible for organising their own accommodation while in Sweden. There are a number of different housing options for international students, including student dormitory rooms, apartments, and share houses.

## Cost of living

Living in Sweden can be expensive. All students, regardless of whether or not they are required to pay application and tuition fees, must be able to cover their personal living expenses while in Sweden.

To obtain a Swedish residence permit, students are required to have a minimum of around SEK 9 000 per month.

When you apply for your residence permit, you must enclose a bank statement showing that you have your own bank funds available in an account belonging to you. More information can be found on the website of the Swedish Migration Agency:  
[www.migrationsverket.se](http://www.migrationsverket.se).

## Contact

If you have any questions regarding Bachelor's and Master's studies at Uppsala University, we are always happy to help!

You can contact the Division for Internationalisation by sending an email to: [undergraduate@uu.se](mailto:undergraduate@uu.se) or [masterprogrammes@uu.se](mailto:masterprogrammes@uu.se).

Through our [Instagram account @studyatuu](#), you can follow current international students and their everyday life in Uppsala and Visby.

You can also read about what life is like as an international student at Uppsala University on our blog: [www.tagged4.uu.se](http://www.tagged4.uu.se).

# MASTER'S PROGRAMMES

## FACULTY OF ARTS

- Aesthetics
- Archaeology
- Classical Archaeology and Ancient History
- Cultural Anthropology
- Cultural Heritage and Sustainability
- Digital Humanities
- Early Modern History
- Egyptology
- Ethnology and Folkloristics
- Game Design
- Gender Studies
- Global Environmental History
- Holocaust and Genocide Studies
- Modern History
- Musicology
- Philosophy
- Scandinavian Studies (*in Swedish*)

## FACULTY OF EDUCATIONAL SCIENCES

- Sociology of Education

## FACULTY OF LANGUAGES

- English, specialisations:
  - American Literature and Culture
  - English Linguistics
  - English Literature
- Language Technology
- Languages, specialisations:
  - General Linguistics
  - Turkic Languages
  - German
- Turkic Studies

## FACULTY OF LAW

- Comparative and International Tax Law
- Environmental Law
- Investment Treaty Arbitration

## FACULTY OF MEDICINE

- Biomedicine
- Forensic Science
- Global Health
- Infection Biology
- Implementation, Transformation Learning and Sustainability (*distance learning*)

## Bachelor's Programmes:

- Energy Transition - Sustainability and Leadership
- Game Design and Graphics
- Game Design and Programming
- Game Design and Project Management
- Leadership - Quality - Improvement
- Sustainable Development in Industrial Engineering

- Innovative Medicine
- Medical Nuclide Techniques
- Medical Research
- Molecular Medicine
- Precision Medicine

## FACULTY OF PHARMACY

- Biopharmaceuticals
- Drug Discovery and Development
- Pharmaceutical Modelling

## FACULTY OF SCIENCE AND TECHNOLOGY

- Additive Manufacturing
- All-Electric Propulsion Systems
- Analytical Chemistry – EACH
- Applied Biotechnology
- Battery Technology and Energy Storage
- Bioinformatics, specialisations:
  - Biology background
  - Computer Science Background
- Biology, specialisations:
  - Cell and Molecular Biology
  - Ecology and Conservation
  - Environmental Toxicology
  - Evolutionary Biology
  - Immunology and Microbiology
  - Ecosystems and Aquatic Ecology
  - NABiS - Nordic Master in Biodiversity and Systematics
- Biophysics
- Chemistry, specialisations:
  - Analytical Chemistry
  - Bio and Nano Materials
  - Biochemistry
  - Chemical Biology
  - Chemistry for Renewable Energy
  - Organic Chemistry
  - Physical Chemistry
  - Theoretical and Computational Chemistry

# MASTER'S PROGRAMMES

- Computational Science
- Computer Science, specialisations:
  - Computer Science
  - Sino-Swedish Master, Computer Science - Software Engineering
- Data Science, specialisations:
  - Data Engineering
  - Machine Learning and Statistics
- Earth Science, specialisations:
  - Geology
  - Hydrology/Hydrogeology
  - Palaeobiology
  - Physical Geography
- Embedded Systems
- Energy Technology
- Evolutionary Biology – MEME
- Image Analysis and Machine Learning
- Industrial Analytics
- Industrial Management and Innovation
- Materials Engineering
- Materials Science
- Mathematics, specialisations:
  - Applied Mathematics and Statistics
  - Financial Mathematics
  - Mathematics
- Paleobiology – PANGAEA
- Physics, specialisations:
  - Astronomy and Space Physics
  - Energy Physics
  - Geophysics
  - Meteorology
  - Nuclear and Particle Physics
  - Theoretical Physics: Quantum Fields and Strings
- Quantum Technology
- Renewable Electricity Production
- Sustainable and Innovative Natural Resource Management – SINReM
- Sustainable Destination Development
- Sustainable Development
- Water Engineering
- Wind Power Project Management

## FACULTY OF SOCIAL SCIENCES

- Accounting and Financial Management, specialisations:
  - Accounting, Governance and Financial Analysis
  - Strategic Management Control
- Business and Management, specialisations:
  - International Business
  - Marketing
  - Organisation
- Economics
- Entrepreneurship
- Global Markets, Local Creativities – GLOCAL
- Human-Computer Interaction
- Information Systems
- International and European Law and Business
- Peace and Conflict Studies
- Political Science
- Psychology
- Russian and Eurasian Studies
- Social Sciences, specialisation:
  - Digital Media and Society
- Statistics and Data Science
- Sustainable Management

## FACULTY OF THEOLOGY

- Euroculture
- Humanitarian Action and Conflict
- International Humanitarian Action
- Religion in Peace and Conflict (*distance learning*)
