

Jacobs University is a research-oriented, state-accredited private university with a broad portfolio of pre-degree, undergraduate and graduate programs. All programs are taught in English. More than 1,600 students from all over the world study on Germany's most international campus.

+ ACADEMIC QUALITY

Classes are small and interactive. Professors follow a transdisciplinary approach, addressing issues from multiple perspectives in addition to acting as personal mentors and academic advisors. Students are actively involved in research from their first year of study.

+ INTERNATIONAL OUTLOOK

With **more than 115 nations represented on campus**, students learn among a melting pot of ideas and viewpoints, providing an experience that both uncovers new passions and broadens perspective preparing them for a globalized world.

+ PERSONAL DEVELOPMENT

With a mandatory **internship**, **study abroad options** or the opportunity to focus on their **start-up** idea as part of their studies we graduate students with self-competence and social skills. In addition, extensive extracurricular activities support and strengthen our students' personal development.

+ EMPLOYABILITY

Our **career services** and **alumni network** guide students in their successful transition into the working world. Jacobs graduates are well-appreciated by both German and international organizations, and pursue careers in industry, governance and research.
