let's change
YOU. US. THE WORLD.

THE HAGUE
UNIVERSITY OF
APPLIED SCIENCES

Welcome

On changing the world together

How do we create a circular economy? How can we help our elderly live comfortably in their own homes for longer, and how will technology contribute? How do we improve our towns and cities? And how do we create top-notch computer system security? Welcome to The Hague University of Applied Sciences, the place where thousands of students, lecturers, researchers, and support staff work every day to find answers to these and many other social questions.

'Let's change. You. Us. The world'. Today more than ever, our THUAS slogan has taken on even greater significance. In a rapidly changing world, we offer our students a broad education in an inquisitive learning culture, so that when you graduate, you are adaptive and resilient – ready to take on the world as a global citizen with a moral compass.

Of course, as an internationally oriented knowledge institution, we provide you with a diverse, inclusive environment in which individual opinions and differing perspectives are valued. Because our students, lecturers, researchers, and support staff come from more than a hundred countries, making our university of applied sciences an inspiring microcosm of the world. This diversity sharpens the mind and prepares our students for their futures as versatile professionals ready to contribute to a better, more just, and sustainable world.

And all of our curricula are built on those values, so we're delighted to welcome every student that identifies themselves with them. Studying at THUAS is more than just learning how to be good at your chosen profession. It's about becoming internationally orientated professionals that can solve major, real-life problems together. We're very excited to have you here, to help you develop new skills and to learn from you.

Elisabeth Minnemann
Chair of the Executive Board

WHY HOLLAND?

HERE'S WHY!

Education in Holland is one of the most innovative systems in the world, based on student-led learning, debate and hands-on experiences. Dutch society is liberal and open-minded with a dynamic and multi-cultural scene. Holland is a small country with a big international presence. Dutch multinationals like Philips, Heineken, KLM, Shell and Unilever contribute to making the economy 17th in the world. Best of all, you don't have to learn Dutch - almost everyone speaks English.

10 fun facts about Holland

1. In our small country, there are about 17 million inhabitants from 190 different nationalities.
2. We celebrate King's Day on 27 April in honour of our King, Willem-Alexander.
3. Orange is our national colour.
4. Cycling is our favourite mode of transport. We have more bikes than people.
5. Holland is as flat as a pancake and a quarter of our country lies below sea level. Luckily we have around 17,000 km of dikes.
6. Soccer is the most popular sport in Holland. A bad performance by the national team causes major depression!
7. Dutch men are the tallest in the world.
8. Holland has proudly hosted the 2021 Eurovision Song Contest in Ahoy Rotterdam.
9. A popular Dutch snack is raw herring topped with onions.
10. Day-to-day weather can vary widely and rainfall can be unpredictable, so check your weather app.

On city life in The Hague

“ Here in The Hague I feel really accepted as an international student. People really open up when they notice that I'm from another country, I'd even say it's an advantage! And as a student you get to benefit from a lot of special discounts and events. What's more, I love the mix of modern and traditional architecture, and also the fact that nature is just on your doorstep. ”

Bianca Maria Leahu from Italy,
Law programme

WHY THE HAGUE?

HERE'S WHY!

The Hague is the perfect place to study – and to chill when you're not. If you are looking for an all-round experience, there are great beachfront cafés behind the dunes, many parks, authentic international cuisine and a vibrant cultural scene. You'll find museums and activities for every taste, from Vermeer and Escher to Madurodam and Mauritshuis.

The Hague is the City of Peace and Justice and home to over 40 international organisations, such as the World Court, the International Criminal Court, the Lebanon Tribunal, Europol, chemical weapons watchdog the OPCW and over 120 NGOs. It's a small, welcoming city with a big international heart.

The Hague in a nutshell

- › International City of Peace and Justice
- › United Nations city
- › 500,000+ inhabitants from 180 countries
- › 40,000+ students
- › Seat of the Dutch government

WHY THE HAGUE UNIVERSITY OF APPLIED SCIENCES?

HERE'S WHY!

Let's change! You. Us. The World! That's our message at The Hague University of Applied Sciences (THUAS). We want to empower you to change and improve the world you live in, but that can only happen if we all work together to make a difference.

THUAS is a place where theory and practice meet. That's what makes us a university of applied sciences. During your time with us you'll be supported by our inspiring lecturers, your fellow students and an extensive professional network. When you complete your studies, you'll be able to start applying your knowledge and skills right away.

How we work

At THUAS, it's never just about studying: we're here to help you expand your horizons and grow personally. We encourage our students to become global citizens – to engage critically with the world around them and cultivate well-informed positions.

THUAS offers an innovative environment where almost 27,000 students from 146 countries come together to develop their own and each other's personal and professional potential and to exchange theoretical and practical insights. All our programmes are based on collaboration and simulate real-life situations.

In highly interactive classes, you can expect your lecturers to challenge you with questions, set engaging assignments and encourage in-class debates. That way, you can hone analytical skills that are critical in your future career.

THUAS has four campuses in The Hague, Zoetermeer and Delft, all with state-of-the-art amenities.

The big picture

As you pursue your degree, you'll gain hands-on experience from work placements at organisations in the public or private sector. This gives you the experience to put what you've learned into practice.

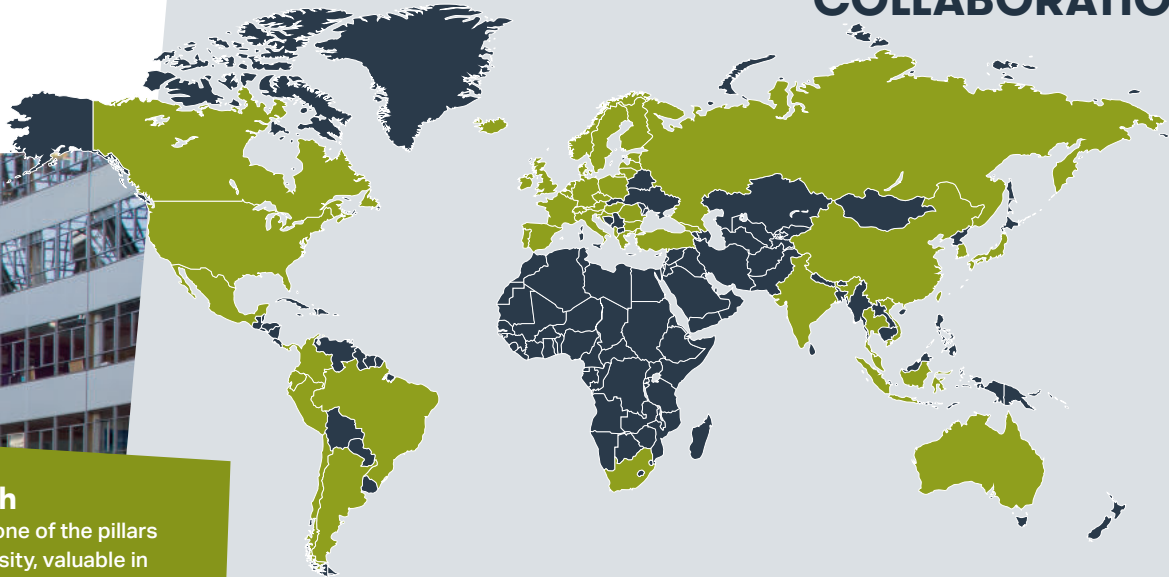

All our courses have a strong international emphasis with opportunities for placements in The Hague, the Netherlands, Europe and overseas. You can tap into THUAS's extensive alumni network and travel to countries like Japan, Argentina and the United States, if permitted.

Downtime

Becoming a global citizen is all about personal development. This is why we encourage our students to take part in our extracurricular activities, which focus on global and interdisciplinary issues.

Besides the more serious events, there are also plenty of opportunities to socialise and have fun. You can join one of THUAS's many student organisations: for example, an international association, the rowing club or even the student orchestra.

COLLABORATION

Research

Research is one of the pillars of our university, valuable in building connections with our partners and integral in binding knowledge, professional practice and society in one. Our research groups all deal with relevant and current social issues. To bolster our focus on research, seven Centres of Expertise have been built, which compose of various research groups who collaborate on a specific theme. These are long-term in nature and focus on collaboration with external stakeholders.

A key part of our approach is to forge strong connections among education, research and professional practice. We are:

Curious:

Lecturers and students are committed and take initiative in the dynamics between society, education and research.

Connecting:

We work within our networks of students and professionals on forging connections that lead to new insights and the mutual exchange of ideas.

Caring:

We are committed to creating a safe and enabling ethos that allows everyone to flourish, innovate and share knowledge and skills to create a better world.

Making connections

During your time at THUAS, you'll be able to make connections with public- and private-sector organisations and to build valuable professional networks in your field of study. These connections are a win-win for everyone: you learn from the experience of seasoned professionals, and they gain from your fresh perspective. It all adds up to theoretical and practical exchanges, which help you develop the professional and personal skills that society needs.

To promote economic and social development and to give you as many opportunities as possible, we work together with other academic institutions, businesses, governments and social organisations. These in turn generate internships, projects, labs, research and more. You have the option to work on local, regional, national or international levels.

A few examples of regional and national partnerships:

- In both education and research, we have developed numerous projects with the municipalities of The Hague, Delft and Zoetermeer, among others.
- At the regional level, we cooperate with organisations such as the Economic Board of South Holland, which brings together businesses, governments and knowledge institutions.
- We have also established partnerships with the ROC Mondriaan, Leiden University and other universities of applied sciences.
- We work with organisations such as the Netherlands Organisation for Applied Scientific Research (TNO), Haga Hospital and NGOs in The Hague region.

About International partnerships

As a networking university of applied sciences, our priority is to create new synergies and opportunities that accentuate the quality of our education and research. To do this, we've built strong international partnerships with academic institutions outside of Holland, such as Tampere University in Finland, Beijing Foreign Studies University in China and Universidade Federal de Minas Gerais in Brazil. Through these bilateral partnerships, you'll be able to take advantage of student and staff exchanges and share research findings and other knowledge with peers at international institutions. All with the goal of having a positive impact on the world we live in.

Our Bachelor's & Master's programmes

- ✓ 45 full-time bachelor's programmes, of which 11 are taught fully in English
- ✓ Our bachelor's programmes take 3 to 4 years
- ✓ 9 master's programmes, of which 3 are taught fully in English
- ✓ Our master's programmes take 1 to 2 years

Our 7 faculties

- Business, finance and marketing
- Health, nutrition and sports
- IT and design
- Management and organisation
- Public management, law and safety
- Social work and education
- Technology, innovation and society

On global citizenship

“ You can really tell THUAS is internationally orientated. As students, we are strongly encouraged to team up with people from other cultures, so that we can learn from each other. This gives the entire school an atmosphere of tolerance and respect. The teachers have a broad international network that you can use to expand your own, whilst learning in a real-life environment. ”

Dara Dinanti from Indonesia,
International Communication Management
programme

Our facilities

- Dining** Have a delicious snack or meal served at one of the campus's restaurants, like WEST 75 on the main campus.
- Sports** Get the Hague Sport & Fitness pass to access all sports and gyms, like the new sports centre.
- Study/ICT** Find state-of-the-art study and work areas and wireless networks on every campus.
- Student life** Check out the various students associations for cultural events and activities organised by students.

Our other programmes

English Academic Preparation School

To improve your English language and study skills to meet the entrance requirements for one of our bachelor's or master's programmes

The Hague Summer School

A cutting-edge 2 to 4 week modular course for students who have at least completed their first year bachelor's degree

The Hague Pathway College

The Hague Pathway College (THPC) offers academic pathways in partnership with the university, which lead to globally recognised undergraduate degrees

Exchange and free mover programmes

For a truly international exchange experience of 6 months or 1 year come to THUAS, located in The Hague, the international city of Peace and Justice

The difference between a university of applied sciences and a research university

There are two types of universities in the Netherlands - traditional research universities (WO) and universities of applied sciences (HBO). Both offer bachelor's and master's programmes, but vary in their teaching methods.

HBO universities, like THUAS, put the emphasis on practical tuition and focus on your future career. You'll learn by working on 'real life' projects in close cooperation with the outside world.

At a HBO university such as THUAS, you will do a compulsory internship or work placement to apply the theory you have learned into practice.

We focus on training and career preparation and work closely with professionals to make sure that our programmes are cutting edge and industry relevant. Businesses and institutions help design our curricula, which means they are hands-on, solution based and market ready. Our lecturers are working professionals, who'll give you first-hand insight into their field.

WO universities tend to run more theory and research-based courses and students attend larger lectures and work independently. HBOs have a more personal approach with smaller classes.

Please note: A THUAS bachelor will not necessarily qualify you for a master at a WO university in the Netherlands - you may need to take additional courses.

Our Bachelor's programmes

- ✓ **Tuition fees*:**
EU/EEA €2,209
Non EU/EEA €8,634
- ✓ **Application deadline:**
Non-EU/EEA: 1 May 2023
Dutch: 1 May 2023
EU/EEA: 1 May 2023

* Please visit www.thehagueuniversity.nl/tuitionfees to check our current tuition fees. New tuition fees are set annually.

At THUAS we offer 45 full-time bachelor's programmes, 11 of which are taught fully in English. Our bachelor's programmes normally take four years to complete. However, some of our programmes can be completed in three years. Please see the admissions requirements to find out which programmes you are eligible for.

All students go on an internship for one semester (half the academic year). The particular arrangements can vary in structure and can entail research or a more practical focus.

At THUAS, all of our bachelor's degrees are based on practical approaches and have an international dimension. Naturally, they also focus on your personal academic and professional development. You'll learn, according to your own style, through a combination of lectures, small seminars, tutorials, self-guided study and individual assignments and exams. You'll round it all off with your thesis.

Find out more about THUAS's bachelor's programmes at www.thehagueuniversity.com/programmes/bachelors

European Studies (ES-4)

European Studies is an interdisciplinary study programme that empowers young professionals to pro-actively resolve the challenges facing organisations, businesses, and institutions in Europe today. Instead of focusing on a specific job, ES combines knowledge of Europe, professional skills and foreign languages to equip students for different careers in which they assist Europe's public and private sector organisations by giving policy advice (on government regulations, public affairs or sustainability), doing public relations, marketing or communications, engaging in fundraising or international trade. Master's Degrees in public policy, international relations or business are also an option, so if you want a career in Europe and you like business and politics – or don't know which you prefer – and you have a feeling for culture and languages, ES might be right for you.

- ✓ **4 years**

European Studies 3 (Accelerated fast-track) (ES3)

This fast-track version of our interdisciplinary Bachelor of Arts in European Studies takes students through Europe's public policy and businesses processes at high speed to help them prepare for a career at a European institution, organisation or business in policy advice, public affairs, marketing and communication or international trade, or for a master's degree in a related field (Public Administration, International Relations, International Business, etc.). It's a more intensive and challenging programme because it essentially combines the first and second year of the four-year European Studies bachelor into one foundation year and pushes students to develop themselves more independently and at a faster pace, while still including intensive foreign language learning and key professional skills. If you like politics and business – or don't know which you prefer – and you're up to the challenge, ES3 may be the right choice for you.

International Communication Management (ICM)

Our planet is facing huge challenges, such as COVID-19, climate change and mass social dislocation, which must be uniformly addressed. Yet, trust in business and political leaders is low. To solve these issues and restore trust, things need to change.

With a degree in ICM, you can be part of the change we need. Our planet is facing huge challenges, such as COVID-19, climate change and mass social dislocation, which must be uniformly addressed. Yet, trust in businesses and political leaders is low. To solve these issues and restore trust, things need to change.

During your three years in the ICM programme, you'll acquire skills in creative and critical engagement for a career helping companies, NGOs and governments take the right actions.

International Public Policy and Leadership (IPPL)

The International Public Policy and Leadership programme gives you the tools to change the world through finding tangible solutions. Our students want to 'roll up their sleeves' and 'get stuck in' - to learn how to unravel big issues with practical know-how. The hands-on IPPL programme means students learn the 'how tos', adopting the right tools to help them to unpick big issues. To become real game-changers in society. At a university of applied sciences, you will learn by doing and adopt an entrepreneurial way of thinking, seeking the right answers along the way. You'll sharpen your analytical and critical skills as you work on pressing national and international issues in such areas as human rights, peace and security, international trade and the environment. You are then ready for a career in such areas as project management, consultancy and policy making.

International Sport Management (ISPM)

- ✓ 3 years
- ✓ The Hague, Zuiderpark Sports Campus

The International Sport Management (ISPM) programme offered by THUAS teaches you the fundamentals of what it means to become a sport manager. The skills you obtain from this programme varies from becoming a leader, how to give your best performance and how to work in a team efficiently. This programme offers you the opportunity to work in an international environment during your studies and give you the chance to study abroad. The ISPM programme is determined to create the game changers in the sport industry by teaching you about personal and professional development. Students can choose their own minors and determine the direction of their own development and professional profile. Finally, the game changer attitude you develop in the first two years can be applied to your mandatory internships.

User Experience Design (UXD)

Bachelor of Science in Communication and Multimedia Design

UXD is all about designing digital products that meet the end user's experiences, emotions, values and goals. You'll learn to put various research and design methods to work in creating meaningful digital experiences. You'll try out various technical solutions as you explore new avenues of user-focused research. By prototyping your innovative concepts, you'll be able to hone your creative and critical design skills.

Our Master's Programmes

Understand what matters

**The Hague
Graduate
School**

Part of The Hague University
of Applied Sciences

If you've finished a bachelor's degree, have some work experience and want to further develop your knowledge and skills, a master's programme could be the next step to achieve this. The Hague Graduate School (THGS), part of THUAS, offers a range of master's programmes and professional courses in both Dutch and English.

Three of THGS's master's programmes are taught entirely in English and have a strong international flavour. The full-time version takes one year. The part-time version takes two and is open only to students with full Dutch residential status.

We understand what matters and provide education with a clear focus:

- Learn skills today; apply them tomorrow
- Small enough to care, big enough to lead
- An international focus with local understanding

- ✓ **Duration:**
1 year full-time or
2 years part-time
- ✓ **Accreditation:**
NVAO
- ✓ **Location:**
The Hague, Main Campus

Find out more about THUAS's master's programmes at
www.thehaguegraduateschool.com

Master of Business Administration (MBA)

Invest in your future and give your career a powerful boost.

With a Master of Business Administration, you develop your business proficiency, gain an international perspective and are well-prepared for future executive and strategic roles.

Depth and breadth

An MBA will change your mindset and boost your career. During this programme, you'll broaden your understanding of the world and business issues, operate on a strategic level and learn the impact of internal and external factors on an organisation. You'll also deepen your understanding of technological and economic changes and the importance of social, ethical and sustainability issues.

Components of leadership

The international business community is looking for cutting-edge skills in leaders of tomorrow. The management of both people and risks requires analytical sharpness and a strategic mindset.

This master's features a personal-leadership module that is taught alongside the regular curriculum during the first half of the programme. Through an actual consultancy project, the Integration Module at the end of the programme combines all the theoretical knowledge and the practical skills from previous modules. To complete the programme for your thesis, you will conduct independent research focused on a key business problem.

Competitive edge

If you have the ambition to develop into a competent leader, an MBA is essential. The MBA is the world's most recognised and sought-after post-graduate degree and is often a prerequisite for a top management job.

This is a master's with a focus on data-driven business control.

International, intercultural

With globalisation and the growth of markets, companies are increasingly adopting a data-driven mindset in their own and other cultures, when it comes to Financial Management and Control. Therefore, financial decision makers must be well-versed in finance and control, in data analytics BD BI and be familiar with intercultural aspects of doing business. All of these elements demand extensive focus in this master's.

The skills you need

You'll explore the world of earnings, expenditures, loans and investments, learn about business processes and crucial skills to rise through the ranks in an international company. You'll be prepared to use your knowledge of the market, the economy and organisations to create business strategies.

Growth and progress

A programme requirement is working on group assignments with a different team for each block. You'll gain experience with practical and applied-research assignments and case studies. With each block, your knowledge will deepen and you'll become more familiar with the various aspects of Finance and Control.

With your master's degree, you'll have all the makings of a business controller with intercultural knowledge and skills required to work in international business environments. And that in turn will open up many opportunities for a challenging career in financial management and control.

Curriculum		
	Learning line	Focus
Block 1	Finance & Control	Financial and Management
	Human & Control	Organisational Behaviour and Leadership Skills
	Research & Control	Data Analytics for Business Control
Block 2	Finance & Control	Treasury Management and Corporate Finance

	Human & Control	Operations Management/ Management Control
	Research & Control	Accounting Information Systems/ Internal Auditing
Block 4	Thesis	

Please check www.thehaguegraduateschool.com/mfmc for the most up-to-date information on the curriculum.

Master International Communication Management (MA)

Develop and fine-tune your professional management skills in international communication with a dual focus on theory and practice.

Facts first

Today, almost any organisation – whether it is a government entity, an international organisation or a multinational – needs a carefully considered communications strategy. Communication is essential in the profile of every organisation, yet communication practices are also under fire.

Where does the truth lie? Even the smallest amount of doubt can lead to charges of 'fake news'. If you're an organisation trying to communicate your message, how do you respond? How do you use communication strategies to show your corporate identity and strength, both internally and externally? How do you communicate persuasively, cogently and compellingly in this globalised world with its myriad of customs, traditions and cultures?

Constant refresh

This programme will give you the essential skills to address these issues as a communications professional. And let's face it, 'these issues' are changing all the time, and fast. For this reason, we review and update the curriculum every year.

A theoretical and a practical approach is taken, as well as a blend of individual and group assignments fused together by intercultural teams. Every module is presented as a masterclass.

International setting

We offer an intercultural innovative learning environment with students, lecturers and alumni from every corner of the world in order for you to build a global network during your study. This means that you can share best practices and learn from your peers on a weekly basis. Everybody brings their own culture and work experience to the classroom, as students and lecturers typically vary in terms of occupation and nationality. Our experienced lecturers, representing 6 nationalities, who all work or do research in the field bring highly relevant and up to date knowledge to the classroom.

Transformative messaging

At the end of the programme, you can prove yourself as an independent researcher as you compose your master's thesis. With your diploma in hand, you can start changing the world as a Master of Arts.

Our other programmes

At THUAS we also provide shorter international programmes. We offer a range of exchange programmes, summer school modular courses that focus on solving global challenges, PREP School – offering support to international students before they start their degree – and The Hague Pathway College.

Find out more about THUAS's other courses
www.thehagueuniversity.com/programmes/other-courses

The Hague Summer School 2023

Do you want to make a big difference by tackling the world's important issues? Are you keen to learn how to take an interdisciplinary approach in unpacking these issues? The Hague Summer School (THSS) in the Netherlands offers two editions of a cutting-edge course. Each two-week edition brings together professionals from both the public and private sectors – to examine how some of the toughest issues the world is facing can best be tackled.

THUAS encourages its students and faculty alike to pursue transformative change – significant and lasting improvements to the world we live in. There is no better place to investigate and pursue these initiatives than The Hague – International City of Peace and Justice and the political heart of the Netherlands.

The study day during THSS is divided into two: a general module in the morning and electives or projects in the afternoon. You can opt for a two-week course in a variety of electives, Block I. Block II has a set programme on Peace and Justice, with projects. The full four-week edition is the best option if you would like to get the most out of THSS.

THSS 2022 offered courses in Peace and Justice, Entrepreneurship, and the Future of Money.

Exchange & free movers

Do you want to go on exchange to one of the best destinations for an experience abroad? Look no further. For a truly international exchange experience come to The Hague University of Applied Sciences. Located in The Hague, the international city of Peace and Justice. The university participates in the Erasmus + programme. We also have a large number of bilateral agreements that enable students from all over the world to join us for a semester or academic year.

- ✓ **Duration:**
6 months or 1 year
- ✓ **Language of instruction:**
English
- ✓ **Location:**
The Hague Main Campus
- ✓ **Periods:**
Starting in September and February

THUAS offers a wide range of courses to exchange students that are completely taught in English ranging from Business to Engineering and Social Work to IT. The specific subject area that you can choose courses from depends on the type of agreement that has been signed between us and your home university. If you are a free mover, a student of a non-partner institution of THUAS and you would like to do an exchange, you need to meet the pre-requisites for the course as well have a good command of the English language. (IELTS 6.0 or TOEFL 213 or 80). Studying at THUAS means you will study in an international environment with students

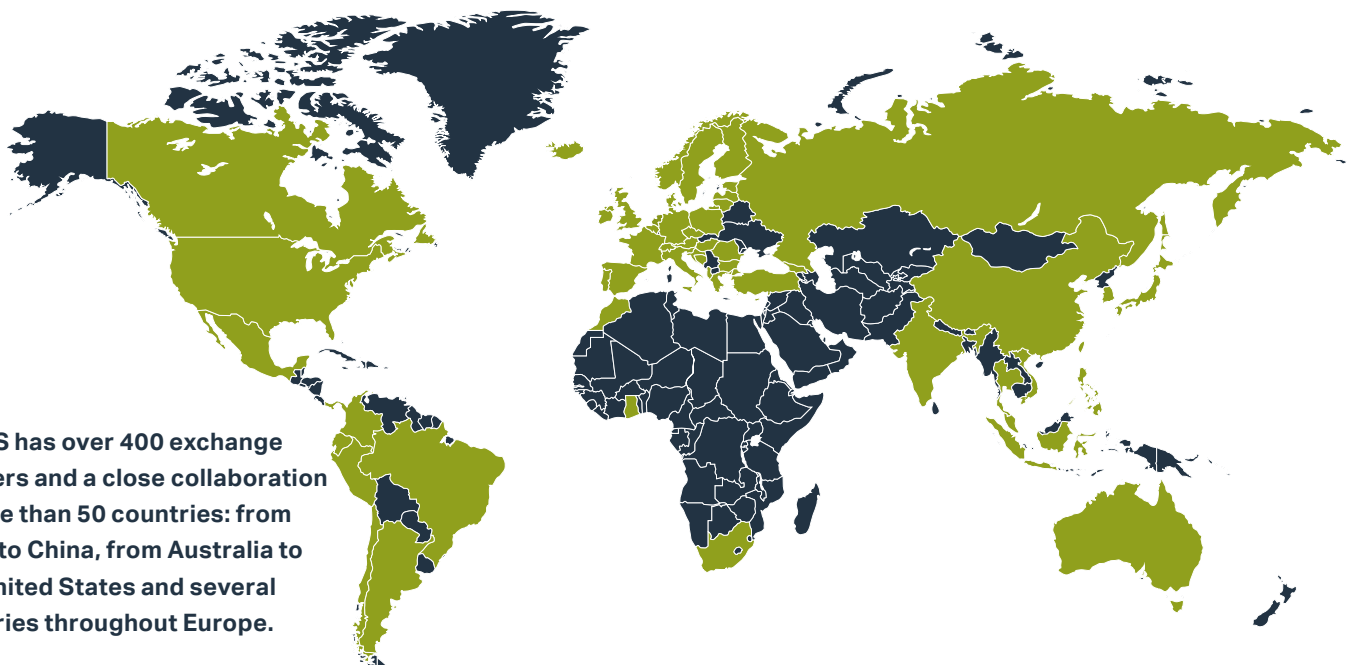

from almost over 140 different countries. All of our programmes revolve around group and project work and simulate real-life situations. During interactive classes, your lecturers will ask questions, set assignments and encourage debates and presentations to hone analytical skills that are critical in your future job.

Of course there is plenty of time to meet new people, be involved in different student organisations, explore the Netherlands and Europe and most importantly make new friends from all over the world!

Want to learn more on the possibilities to come and join us for your exchange as an exchange or free mover student, please get in touch with the Erasmus/International Office of your home university. They can inform you on the procedures and can help you with the application process.

THUAS has over 400 exchange partners and a close collaboration in more than 50 countries: from Brazil to China, from Australia to The United States and several countries throughout Europe.

THUAS has over 400 exchange partners and a close collaboration in more than 50 countries: from Brazil to China, from Australia to The United States and several countries throughout Europe.

For more information about semester dates, deadlines for application and courses and fees (only for free movers) please visit:

The Hague Pathway College – International Foundation Programme

Located right on the The Hague University of Applied Sciences (THUAS) campus, The Hague Pathway College (THPC) offers academic pathways in partnership with the university, which lead to globally recognised undergraduated degrees.

The Hague University of Applied Sciences offers you the opportunity to follow an international foundation programme after which you will be admissible to our 3-year English-taught bachelor's programmes. The international foundation programme combines academic study, English language training and study skills to prepare you for degree-level study.

After successfully completing of The Hague Pathway's College International Foundation, you

will have guaranteed admission to the bachelor's programme you chose without any additional testing such as IELTS.

Next to the programme's academic focus we help you to adjust to academic and social life in your new country. We offer plenty of academic support to prepare for your future study success and optional Dutch classes with main focus on the Dutch language and culture. Our guidance and support during your first year in The Hague

will help you to settle and feel more integrated into Dutch society. Soon after arrival you will feel amazed about your new group of international friends, and your quick academic and English progress.

	International Foundation - One year	International Foundation - Fast-track
Duration	September - June	January - June
Application deadline	15 July	1 November
Tuition fee	€12,875	€9,650

Academic Entry Requirements	Secondary school leaving certificates, with good grades in relevant subjects, are accepted from most countries in the world	

Undergraduate degrees

The International Foundation programme prepares students to progress to the following 3-year bachelor's degree programmes at The Hague University of Applied Sciences:

Management and Social Sciences	Technology and Design
• BBA International Business	• BSc Industrial Design Engineering
• BSc International Financial Management and Control	• BSc Process and Food Technology
• BA European Studies	
• BA International Communication Management	
• BA International Sport Management	
• BSc User Experience Design	

The teaching programme has a unique and innovative approach by offering an integrated approach to developing English language skills, academic skills and subject knowledge like Mathematics, Physics or Business. During the foundation programme you will work on projects with a team of other students from around the world. Just like you will do when starting your bachelor's programme at The Hague University of Applied Sciences.

Learn in English & improve your academic skills

Make friends with students from across the globe

Adjust to a new home with personalised support

For more information please visit: www.thehaguepathway.nl

The Hague Pathway College brings you a step closer to your academic dream and offers you an unforgettable learning experience.

The Hague Pathway College – English Academic Preparation Programme

The English Academic Preparation Programme helps you improve your English and academic skills and is a perfect springboard to your studies in the truly international city of The Hague.

The English Academic Preparation programme is taught by The Hague Pathway College, as a close partner of The Hague University of Applied Sciences. The programme will help you gain the level of English and study skills you need to enroll in The Hague University of Applied Sciences English-language bachelor's or master's degrees.

The students work in an international and interactive learning environment, developing

academic skills such as researching, academic reading and essay writing, as well as presenting skills and working in teams on projects.

At the end of the programme all the students will take the IELTS test. The goal is to score at least 6.0 which is the progression requirement for The Hague University of Applied Science bachelor & master degree programmes. The tuition fee includes one IELTS test.

Undergraduate and Postgraduate degrees

The English Academic Preparation Programme prepares students to progress to the following 4-year bachelor's degree programmes and master's degree programmes The Hague University of Applied Sciences:

GET READY!

Deciding what and where to study after you leave school is a major decision and it is important to get it right, as it will affect your future success. To help you with this, THUAS offers a number of resources and events.

If you've chosen to study at THUAS, it's time to tick all the boxes on our practical checklist and complete the right paperwork to move abroad.

Choose the programme that's right for you

Need some help deciding on the right programme? Some events and activities will give you a feel for THUAS.

Open days

Open days at THUAS are the ideal opportunity to find out about study programmes, speak first hand to students and lecturers and tour the impressive campus.

Find out about the next open day at www.thehagueuniversity.com/open-day

Online Open Days

THUAS regularly holds Open Days that aim to give our prospective students a sense of what life would be like for them here. To complement these, we now offer Online Open Days, which also feature live webinars. On the page below, you can also find videos of all programme webinars held so far.

www.thehagueuniversity.com/study-choice/help-in-choosing-your-study/open-day

Shadow a student

Find out what a typical day of study is like for one of our students and spend the day with them. You can arrange this with your chosen programme.

www.thehagueuniversity.com/study-choice/help-in-choosing-your-study/shadow-a-student

Live Q&A Sessions & Webinars

Whether you'll be enrolling at THUAS or are still mulling your options, why not join us for one of the online sessions we regularly hold to answer your questions, offer advice and point you to further resources? Topics that come up include student life, finances, housing and life in Holland.

To find out more and to see when the next sessions will be held, please visit

www.thehagueuniversity.com/study-choice/help-in-choosing-your-study/meet-us-around-the-world

Meet us around the world

You don't need to jet into The Hague to get more information about our English bachelors and master's programmes. We'll bring the information to you. Meet us in your home country, or one that's close by and get the lowdown on our programmes. We exhibit at international education fairs - as far afield as Mexico and Portugal.

Meet our representatives around the world

Our representatives stationed around the globe can also talk you through our programmes and entry procedures. Albania, Azerbaijan, Brazil, Bulgaria, China, Colombia, Croatia, Czech Republic, Egypt, Estonia, Georgia, Greece, Hungary, Indonesia, Italy, Ireland, Kazakhstan, Latvia, Lithuania, Mexico, Moldova, Nigeria, Poland, Portugal, Romania, Russia, Slovakia, Spain, South Korea, Ukraine, United Kingdom and Vietnam all have representatives.

It's quite possible that we'll be at an education fair near you, or that our representative is based in your home city.

Ask a student, graduate or lecturer

Our current students and alumni can give you a real insight and honest opinions about life on campus, specific study programmes and what the future holds after graduation. Get in touch via our Facebook page at www.facebook.com/thehagueuniversity, or through your programme.

Our Tips and Tricks Page

Once you've decided on THUAS, visit our Tips and Tricks page. It has lots of useful information and practical tips on student life here.

www.thehagueuniversity.com/campaign/student-101-top-tips-for-studying-at-thuas

THUAS to-do list

- ✓ Decide which programme is right for you by attending one or more of THUAS's events
- ✓ Find out if you meet the admission requirements
- ✓ Start your preparations well in advance (at least a year)
- ✓ Check out if you can apply for a scholarship
- ✓ Apply for your visa, residence permit and health insurance
- ✓ Find accommodation in The Hague
- ✓ Link up with other students by following us on Facebook at www.facebook.com/thehagueuniversity and Instagram [@thehagueuniversity](https://www.instagram.com/thehagueuniversity).

Our academic year

Our academic year starts around 1st September and ends in mid-July. It's divided into two semesters, which are broken down into two periods of six weeks, with a week free between them. The free weeks fall in February/March, May and October. There is also a two week Christmas break.

For the latest information on study choice events and activities check: www.thehagueuniversity.com/study-choice/help-in-choosing-your-study

STEP
2

Admission requirements

Applying for bachelor's programmes

You'll need the equivalent of a Dutch HAVO or VWO diploma to apply for our bachelor's programmes. If you hold a non-Dutch diploma, your eligibility will be assessed against Nuffic guidelines (www.nuffic.nl).

Once you have filled out the relevant forms and applied, it's time to sit tight and wait while the admissions committee consider your application. This process can take several weeks.

Find out more about application requirements at www.thehagueuniversity.com/enrolment

What if you don't meet the entry requirements?

Don't worry, there are still alternative ways to help you get in.

21+ admissions test

If you're 21 before 1 September 2023 but don't have a diploma or a qualification that meets the entry requirements, you can take the 21+ Admissions Test. To be eligible to participate, you must be a citizen of a EU/EEA country or Switzerland, or already have a valid residence permit for the Netherlands.

Find out more at www.thehagueuniversity.nl/21plus

The Hague Pathway College

If you'd like to apply for a 3-year bachelor's programme but don't meet the academic entry requirements, you might be interested in joining The Hague Pathway College, offered by our authorised partner Navitas. Their one year foundation programme will offer you the chance to bring your academic level up to the required level. If needed, there is the opportunity to work on your English at the same time.

Find out more at www.thehaguepathway.nl

When you have chosen your programme, it's time to find out if you meet the admissions requirements.

Applying for master's programmes

The entry requirements for our master's programmes vary according to the programme. Applicants must be aged 22 or older and all three of our masters require a minimum of two years of relevant work experience. Masters applicants must have a bachelor degree from a recognised university or academic institution.

Find out more at www.thehagueuniversity.com/programmes/masters

English language requirements

Our international bachelors and master's programmes are taught entirely in English, so you'll need a good command of spoken and written English.

If you're educated in the Netherlands, UK, Ireland, USA, Canada (except Quebec), Australia, New Zealand, South Africa, Malta, or hold a diploma (including English as an exam subject) listed at www.thehagueuniversity.nl/enrolment, you don't need to take an English proficiency test.

If you are applying for a master's programme and have completed an English-taught bachelor's programme, you may also be exempt from an English proficiency test.

All other applicants are required to have a valid and sufficient English proficiency test.

Find out more at www.thehagueuniversity.com/enrolment

Applying for the English Academic Preparation programme

If you don't have the proficiency in English that you need in order to enrol on your chosen programme, you can apply for the English Academic Preparation programme, or Prep School, which takes six months or one year. On completion of this course, you'll be ready to join a bachelors programme and will have a working knowledge of The Netherlands, The Hague and THUAS under your belt.

To be admitted to Prep School, you need to be eligible for the programme you wish to take after completing the course and have an IELTS or TOEFL test result with sufficient score.

Find out more at www.thehagueuniversity.com/prepschool

Applying for The Hague Summer School

The Hague Summer School is open to anyone who has completed a first year bachelor's degree, or already has a bachelors degree. So both undergraduate and graduate students are welcome to apply. You should have a good working knowledge of the English language (level B2 or higher) before you apply.

The last entry criteria to The Hague Summer School is your ambition. When you apply, 'motivation' is one of the most important parts of the selection process.

Find out more at www.thehagueuniversity.com/programmes/other-courses/the-hague-summer-school-eng

NVAO
ACCREDITED PROGRAMME

Good to know

All THUAS programmes are accredited by The Accreditation Organisation of the Netherlands, www.nvaio.com

Scholarships and finances

EU/EEA and non-EU/EEA students pay tuition fees for bachelor's and master's programmes. So it's time to do the maths and explore the loans, grants and scholarships that may be available to finance your studies at THUAS.

Bachelor's and master's programmes

EU/EEA bachelor's students pay €2,209 per year and most non-EU/EEA pay €8,634. Tuition fees vary between €19,700 and €21,999 for a masters.

Please visit www.thehagueuniversity.com/tuitionfees to check our current tuition fees. New tuition fees are set annually.

Other Programmes

The Hague Summer School has a one-off fee which covers all of your main costs including tuition, accommodation, lunches and coffee breaks on class days, study materials and in-programme cultural visits and social activities.

The four-week course costs €3,045 (shared room)/€3,175 (single room) and the two-week course costs €1,795 (shared room)/€1,895 (single room), but discounts may apply. Prep School costs €5,300 for the half-year and €9,000 for the full year course. Please note that these were the fees for the 2022 programme. Please check the link below for our current fees.

Visit www.thehagueuniversity.com/programmes/other-courses/language/en

On the cost of living

“What should you consider as a monthly budget? I'd say around €1000 per month would suffice, depending on your lifestyle. If you shop at The Hague Market and do most of your travelling by bike, you can save a lot of money. Side jobs aren't too hard to find, especially if you speak a little Dutch. I got very lucky: as a chauffeur, I get to drive people around in their own cars for quite a good salary.”

Jakob Grüter from Germany,
International Public Policy and Leadership programme

Scholarships

International students should check if any scholarships are available in their home country. Your local Dutch embassy and present college or university should be able to help with information.

It's also worth checking to see if you are eligible for THUAS's Holland Scholarship.

Find out more at www.thehagueuniversity.com/scholarships

Monthly expenses

You'll also need to take your monthly expenses on accommodation, food and living into account and budget for your time at THUAS.

Experience has shown that students living in the Netherlands for one year spend between €800 and €1,100 a month.

An average room in the Netherlands costs somewhere between €400 and €700 a month. The costs depend on the type of room you have, what is included in the rent, if the room is furnished, if you will have to share your room (or the facilities) and the size of the room. Don't forget to budget about €650 per year for medical insurance. Bachelors first year students will also need to invest from €500 to €800 on books and materials.

To give you some approximate figures, bread and rice cost around €1.50 at the supermarket. A return train ticket from The Hague to Amsterdam costs around €24.40.

Find out more about financing your bachelor study and living in the Netherlands at www.thehagueuniversity.com/financing-your-bachelor-study

Visas and permits

EU and EEA students don't need a visa to enter the Netherlands. All other students in general require an entry visa and/or residence permit.

If you do require a visa or residence permit, the good news is that THUAS will apply on your behalf. All you have to do is transfer a package fee and upload the relevant documents. More information about the procedure and documentation will be provided after acceptance.

Find out more about visas and permits at www.thehagueuniversity.com/study-choice/applications-finances-and-moving-here/immigration-and-visas

Accommodation

Looking for a place to live in The Hague or one of its satellite cities can be a challenging experience, so it pays to start house hunting early. Especially for students it can be challenging to find a place to live. Therefore, THUAS reserved a number of rooms at our accommodation partners for international students.

If you pay the THUAS housing service fee, you can make use of the accommodation that is already reserved through the university. The number of rooms is limited and are allocated on a first paid first serve base. Having a legitimate address is a prerequisite for obtaining a residence permit.

Find out more about living in The Hague at www.thehagueuniversity.com/housing

On THUAS' housing service

“Finding living space is a lot easier when you're on site. That's why we do it for you! With a selection of 600 rooms and apartments, we try to cater to different tastes and budgets. That way most first-year students have a good shot getting into one of different locations, all within reasonable travelling distance of THUAS.”

Marlies Rexwinkel,
Teamleader International Office
