About us

Babeş-Bolyai University is a dynamic, but also a traditional institution, with deep roots in Central Europe and strong international academic ties. Its origins date back to 1581, which makes it the oldest institution of higher education in Romania. Located in Transylvania, a European province with a complex history, Babeş-Bolyai University is the crowning achievement of a long series of attempts to establish here a higher education institution. Thus, the University's international recognition is materialised in different forms of collaboration and joint scientific programmes with other well-renowned universities from all around the world (Leipzig University, Germany; Corvinus University, Hungary; University of „La Sapienza”, Italy, Paris XII, France, Michigan State University, USA; Dongguk University, Korea).

It is the largest Romanian university (with more than 49.000 students and 3.000 faculty staff), **situated at the confluence of the Eastern and Western cultures.** As an academic public institution, its aim is to promote and sustain the development of specific cultural components within the local, regional, national and international community.

The University lays considerable stress on foreign language skills and on educational programmes in widely spoken languages, therefore **it provides a wide range of internationally competitive BA, MA and Ph.D.** programmes in English, German or French. Also, in order to allow all students to study at least one foreign language, the University provides two language centres (*Lingua Language Centre and Alpha Language Centre*) and various cultural centres (Italian, Austrian, French, Polish, American, German, Korean, the Institute for Turcology, Confucius Institute).

The University's assets comprise modern buildings, equipped with laboratories at high technical standards, libraries, sport and leisure facilities. Each faculty, cultural centre and research institute has its own library, all being coordinated by the Central University Library. The athenaeum also provide high quality support services, *15 dormitories* (with a total capacity of 5.000 places), *eateries* (2 restaurants and 4 cafeterias), museums (Academic Museum, Mineralogical Museum, Zoological Museum, University Memorial Park, Museum of Paleontology and Stratigraphy), *cultural centres, language centres* and other facilities, such as the **Botanical Garden**, or the **Sport Park**.

Our students benefit from outstanding educational and research opportunities under the guidance of a well-established academic staff. Research has continuously and thoroughly been promoted along our University's existence and therefore, laboratories and research centres of internationally scientific relevance have been created. In this respect, Babeş-Bolyai University has made significant investments in the research area, in order to increase its performance and international visibility.

Cluj-Napoca is genuinely a university city animated by a vivid and colourful cultural life and entertainment possibilities. It provides both students and its long-life standing residents various museums (History, Art, Ethnography, Pharmacy, Linguistics Romanian National Opera House, Romanian National Theatre and Hungarian Opera House, Hungarian Theater, Puppet Theater), leisure parks, movie theatres and movie complexes, malls (Iulius Mall and Vivo) and shopping centres (Central, Sora). Annually, our city hosts international and European film festivals (Transylvania International Film Festival, Night of Ad Eaters) and various music festivals (Musical Autumn in Cluj), thus uniting people from different parts of the world in one sole multiethnic and multicultural gathering.

While Romania is a Member State of the European Union, the education costs for studying at BBU are yet substantially lower. The average tuition fee per 10 months at our University is around \$2200 - \$5000, for students from non-EU Member States. For students from countries within the EU, the tuition fee is the same as for Romanian students.

Furthermore, in order to assist international students, our University gives average information concerning the living costs in Cluj-Napoca.

Preparatory Year of Romanian Language

Are you a foreign citizen looking for the best place to learn Romanian language as soon as possible?

Babeș-Bolyai University offers a Romanian language preparatory year for the candidates who are not familiar with the Romanian language and opt to follow a study programme which is available only in Romanian.

The Romanian language preparatory year follows the structure of the academic year (October-June). It is an intensive course, comprising **25 hours of classes/week for two semesters**.

The admission procedure follows the same steps and has the same calendar as the admission to other specialisations.

Processing fee: 50 EUR
Tuition fee: 2115 EUR/year
